KALEA LIFT X30 SERIES

CABIN LIFT ECOSILENT 2.0 – GENERATION 4

Kalea X30 Series is a modern cabin home lift without a shaft and can fit in a conventional concrete shaft site. With its minimalist look, and signature Scandinavian design it fits those who are looking for a home lift with the latest technologies including, touch screen control panel and call button, quiet EcoSilent screw-driven lift, energy and space saving without sacrificing standing space and comfort for the passengers.

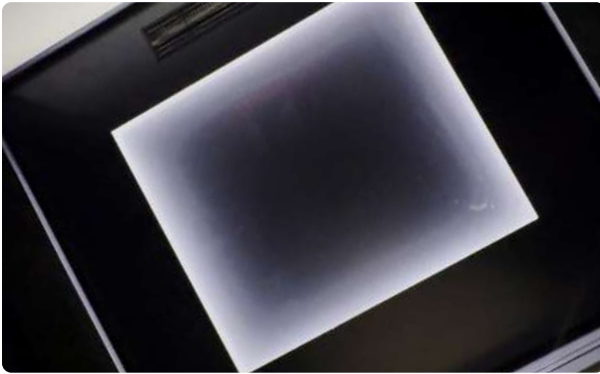

X30 STANDARD SERIES

Located in the signature chilly, artsy, and fashionable city of Bandung—known as the Paris van Java—a lift with the same sense of style was needed. The X30 Standard became the perfect solution. Inside this comfy 3-story villa, with a backdrop of brown wood, grey ceramics, and fresh greenery, the timeless Black Nox X30 Standard lift fits perfectly.

SPECIFICATIONS

X30 Standard

Swing Door

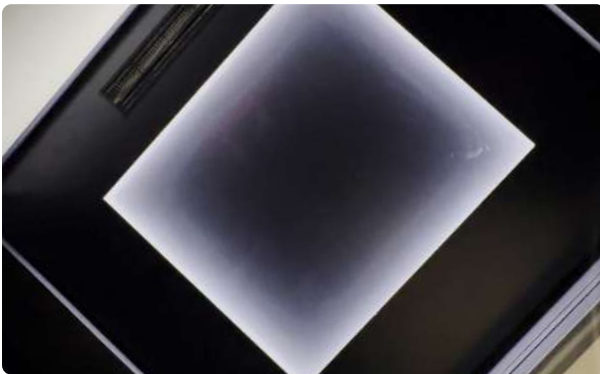

1210 x 1315 mm

3 Stops

X30 STANDARD SERIES

Against the backdrop of a grey marble wall in this modern luxury villa, a lift was needed to match the design. As warm, natural light fills the home from twilight into night, the Black Nox color suits the atmosphere perfectly, the black color on the lift shaft sits perfectly in contrast with the white wall environment.

SPECIFICATIONS

KALEA LIFT KOSMOS SERIES

ECOSILENT - GENERATION 3

The Kalea Kosmos is Kalea's 3rd generation screw-driven platform lift, deeply inspired by Scandinavian minimalism. Featuring its signature handrail and control panel, it reflects Kalea's design philosophy at its finest—where function meets timeless style.

KOSMOS K60 SERIES

The project began from the homeowner's sudden need for a home lift—one that wouldn't require a pit or foundation digging like conventional lifts—when their parents visit. The K60 Kosmos blends seamlessly with the modern white interior and elegant black stairs encapsulating a modern home that will last until the old age.

SPECIFICATIONS

K60 Kosmos

Swing Door

1100 x 1467 mm

3 Steps

K60 KOSMOS SERIES

One of the most fascinating public space projects, featuring a striking post-modern design — black industrial minimalism on the exterior with softer white and warm brown tones inside. The timeless Kosmos K60 complemented this contrast perfectly, and with its three stops, created an impressive presence that extends through to the rooftop outdoor area.

SPECIFICATIONS

K60 Kosmos
